DR. HENRY CLOUD

# Church OnDemand

DR. HENRY CLOUD

Church OnDemand is a digital message library created to equip ministry leaders with HD video content to show to their congregation, organization, small group, etc. so that those they lead may become healthier people and more fruitful leaders. Think of it as Netflix for ministry leaders. Bring Dr. Henry Cloud's messages and sermons into your organization, and take a Sunday off!

We know that ministry leaders need great quality content for the next event, meeting, retreat, or church service. Because Dr. Cloud just cannot possibly accept all the invitations he gets to deliver content live and in-person, we wanted to create a low cost (\$79/year) way for ministry leaders to access Dr. Cloud's faith-based video library. We want to equip all ministry leaders with a simple, beautiful, and powerful resource for both the health of their soul as well as the souls of those they lead. The content is deep, rich, and rooted in solid psychological research and theological teaching. our hope is that we can champion healthy ministry leaders, healthy cultures, and healthy churches that blossom into ll that God has created them to be.
